Senior Software Engineer

Accomplished Senior Software Engineer with over 7 years of experience at tech leaders like Delivery Hero SE and Cisco Systems. Led the creation of a microservice that slashed loading times by 30% and directed an API migration that reduced infrastructure costs. Specialized in boosting system performance, achieving a 3k EUR monthly saving with a bespoke metrics framework. Proficient with FastAPI, Python, Java, holding a Master's in Computer Science from BITS, Pilani. Known for mentoring and steering cross-functional teams, significantly enhancing project delivery. Passionate about leveraging technical expertise to drive efficiency and foster innovation in software engineering.

WORK EXPERIENCE

Senior Software Engineer • Full-time

Jan 2022 - Present

Delivery Hero SE • Berlin, Germany

- Identified bottlenecks and implemented custom micro service for serving recommendations on home screen which reduced the Swimlanes loading time by 30%.
- Solely managed the migration of API and data ingestion pipeline to new infrastructure, resulting in a significant reduction in the extra cost of managing two infrastructures in parallel.
- Authored an internal framework to create and push custom metrics to Datadog across recommendation domain, thereby reducing the log indexing costs by 3k EUR per month.
- Increased the throughput of APIs by upto 7x current RPM by identifying the need and implementing a cluster wide caching system using Redis in sentinel mode.
- Implemented versioning of APIs using FastAPI sub-application mounts with zero downtime.

Software Engineer III • Full-time

Aug 2017 - Dec 2021

Cisco Systems • Bengaluru, Karnataka, India

- Collaborated effectively with cross-functional teams on 4 projects and supported significantly to 6 major releases and several hot patch releases for the API, backend, GUI, and CLI of the email security platform and cloud offering.
- Led a cross-functional team of 4 members in a start-up-like culture, imparting knowledge and working collaboratively to deliver high-quality features on time.
- Mentored ~6 junior and fellow engineers, providing personalised guidance and support that facilitated their rapid onboarding and understanding of critical project components, slashing the onboarding time by up to 1 week.
- Participated in several field, alpha and beta test communicating and collaborating with the customers on their pain points and feedback, potentially improving the feature before release.

Software Engineering Intern • Internship

Jan 2017 - Jun 2017

Cisco Systems • Bangalore, Karnataka, India

- Improved efficiency of SenderBase Telemetry System by 5%.
- Built an AMP Appliance Grouping page that enhanced the usability of the AMP feature, resulting in a more intuitive user experience, a 50% decrease in UI navigation, and positive customer feedback.

Software Engineer • Full-time

Nov 2014 - Jun 2015

Persistent Systems Ltd • Nagpur, Maharashtra, India

- Actively contributed to the development of backend code and MySQL scripts, contributing to the delivery of 2 project milestones within a 7- month timeframe.

EDUCATION

Master of Engineering in Computer Science

Birla Institute of Technology and Science, Pilani • Pilani, Rajasthan, India

Jun 2017

Bachelor of Engineering in Computer Science

GH Rasoni College of Engineering • Nagpur, Maharashtra, India

Jun 2014

SKILLS

Proficient: FastAPI, GCP, Java, PostGRES, Python, Redis, REST, Spring Boot

Familiar: AWS, C++, Docker, Hazelcast, HTML, Javascript, Jenkins, Kubernetes, Terraform

Concepts: Agile, Design Patterns, Distributed Systems, Micro- services, ORM

PROJECTS

Brainf*ck Interpreter

Create an interpreter for this awesome language as a hobby project.

Utilised: cherrypy, python, HTML, javascript

Console based Infrastructure and Storage as a service provider application

Created an application to create on demand VMs and storage on linux subsystem.

Utilised: C++, libvert, ngrest, linux

AWARDS & SCHOLARSHIPS

Silver Medal in Academics

GHRCE

Jul 2014

Award for Academic Excellence

GHRCE

Jul 2014
